## LAWN GRASS SEEDS

For the formation of new lawns, 1 lb. will sow 200 square feet, or 10x20; 100 lbs. will sow one acre. For renovating old lawns, use one-half this quantity.

### DONS "EVERGREEN" MIXTURE

This is a mixture of the finest American and European grasses best adapted for lawns. It is prepared from our own formula, and is a careful blending of varieties including Bent grasses, making it very suitable to producing the thick growth and velvety appearance so much sought after.

5 lbs. \$3.25; 10 lbs. \$6.00; 25 lbs. \$14.25; 100 lbs. \$55.00

### DON'S "STURDY" MIXTURE

This is a popular low priced mixture and is well suited for various soil conditions. Forms a thick turf in a very short time.

5 lbs. \$2.50; 10 lbs. \$4.50; 25 lbs. \$10.50; 100 lbs. \$40.00

### DON'S "SHADY PLACE" MIXTURE

This mixture is composed of grasses that are naturally adapted for growing under trees and shaded situations.

5 lbs. \$3.25; 10 lbs. \$6.00; 25 lbs. \$14.25; 100 lbs. \$55.00

### DON'S "RESTORATION" MIXTURE

A mixture of grasses suited to take firm hold and grow quickly in unfavorable situations.

5 lbs. \$3.25; 10 lbs. \$6.00; 25 lbs. \$14.25; 100 lbs. \$55.00

### DON'S "ALL BENT" MIXTURE

A special mixture of various bent grasses that will produce a sod equal in texture to the finest putting green.

5 lbs. \$8.50; 10 lbs. \$16.00; 25 lbs. \$35.00

### DON'S "LAWN TENNIS" MIXTURE

Will make a fine green and lasting turf.

5 lbs. \$3.25; 10 lbs. \$6.00; 25 lbs. \$14.25; 100 lbs. \$55.00

### DON'S "TERRACE" MIXTURE

A mixture of grasses with long, interlacing roots, that will bind steep embankments.

5 lbs. \$3.25; 10 lbs. \$6.00; 25 lbs. \$14.25; 100 lbs. \$55.00

### DON'S "SEASHORE" MIXTURE

Composed of grasses suitable for seaside lawns.

5 lbs. \$3.50; 10 lbs. \$6.50; 25 lbs. \$15.00; 100 lbs. \$55.00

### DON'S "PUTTING GREEN" MIXTURE

This is a well balanced mixture of grasses including various varieties of Bent Grasses and Fescues so as to make a smooth even turf. Sow from 75 to 100 lb. for the average sized 90 x 90 ft. green.

25 lbs. \$22.50                    100 lbs. \$85.00

### DON'S "FAIRWAY" MIXTURE

This mixture is specially blended to assure quick and lasting results, and will give you a close velvety surface that will stand frequent close cutting and trampling.

25 lbs. \$13.00;                    100 lbs. \$50.00

### HAY AND PERMANENT PASTURE MIXTURE

Special Mixtures for Light, Medium and Heavy soils.                    25 lbs. \$11.00;                    100 lbs. \$40.00

### BON ARBOR SPECIAL LAWN DRESSING

An organic lawn food that should be applied in spring and fall at the rate of 1 ton to the acre or 100 lb. to 2000 square feet.

100 lb. Bag \$3.50;                    Ton \$60.00

Separate Grasses and Clovers, see page 38

## ANEMONE

### Claremont Super Hybrids

This is a new and improved strain of the popular St. Brigid Anemone which has been developed in Australia. Trials made in American gardens have shown it to be wonderfully adapted to this climate, producing flowers much larger in size and brighter in coloring than the original St. Brigid.

Practically every shade and hue is included in this remarkable strain, ranging from pure white through rose, pink, mauve, blue, vivid scarlet and deep maroon. The long stiff stems render the blooms ideal for vases and indoor decoration. They are of good substance and last well when cut.

From our observation of the results this strain has produced here, we can thoroughly recommend it to all our gardening friends.

Packet \$1.00, 6 pkts. \$5.00

## NEW RANUNCULUS

### Claremont Super-Hybrid No. 9

(Raiser's description)

Comparative tests which we have conducted during the past few years have shown the "Claremont" Hybrids to be very definitely the finest strain ever introduced. This remarkable Ranunculus is indispensable for exhibition. It is undoubtedly the largest flowered variety in cultivation. Huge flowers four to five inches across being produced in such profusion that the plants are literally hidden. The color range, which is the most varied we have yet offered, embraces pure white, pinks and yellows in all shades, brilliant scarlets, vivid apricots, and a full range of all shades incidental to these colors. Notwithstanding their immense size, the flowers are in no way coarse, and the general quality is superb.

Packet \$1.00, 6 Pkts. \$5.00

Claremont Ranunculus exhibited by Mrs. W. Redmond Cross (Mr. Anthony Sailer, gardener) at the February 1936 meeting of the Horticultural Society of New York, and awarded a Cultural Certificate.

## NEW ANTIRRHINUM

## RUMSONHILL

## Continuous Blooming

This is a new Snapdragon which has the unique advantage of being practically ever-blooming. Seed sown in the greenhouse in June will start flowering early in September, or sometimes at the end of August, producing a continuous succession of first class blooms till the June following.

The color is a soft rose-pink, and the flowerets are evenly spaced on long wiry stems. It is of average height, the length of the stems averaging two feet, sometimes running to three feet. It may be trained on carnation wires, and requires no disbudding. Is also good as an outdoor variety.

Our illustration is a reproduction of an actual photograph taken in the greenhouse. While we do not recommend "Rumsonhill" as an exhibition variety, its qualities as a persistent bloomer, in addition to its light and graceful habit combine to render it particularly adaptable for bouquets, vases and general indoor decoration.

We are glad to present this variety as being a new introduction of great merit, and worthy of a trial both by the private gardener and the florist.

Per Packet \$1.50

**PANSY**  
**DON'S GIANT**  
**WINTER FLOWERING**

Pansies at Their Loveliest

One of the most important horticultural introductions of recent years. Plants grow  $2\frac{1}{2}$  to  $3\frac{1}{2}$  feet high, with six to eight strong upright stems bearing numerous good sized blooms on flower stems ten to twelve inches long.

Seed should be sown under glass in July or August, and the plants benched in the greenhouse about October. Set the plants twelve inches apart in the bench and support in the same manner as carnations. They may also be grown in 6" pots sunk in the bench if desired.

The color range is excellent, and if the blooms are kept cut as they mature the flowering period will continue from December well on into the spring.

Packet of 100 Seeds \$2.00

# Novelties and Specialties in Flower Seeds

## BEGONIA

Don's Crimson Bedder. Flowers intense crimson, Shining dark green foliage. Compact habit, about 12 inches high, flowering continuously till cut down by frost. One of the best bedding begonias introduced. Pkt. 50c

Christmas Cheer. (Semperflorens or Everblooming type.) A wonderful bedding variety, very floriferous, producing masses of bright cherry red blooms. The individual flowers are large, often two inches in diameter.

Pkt. 25c 5 Pkts. \$1.00

Christmas Pink. The flowers are of a vivid bright pink shade. In all other respects this excellent bedding variety is a counterpart of Christmas Cheer, described above.

Pkt. 25c 5 Pkts. \$1.00

## CORNFLOWER

Jubilee Gem. A dwarf variety growing about 12 inches in height. The compact plants are literally covered with dark but vivid blue flowers. The foliage is distinct from all other cornflowers, forming a tufted mass of vivid green. Pkt. 50c

## COTYLEDON SIMPLICIFOLIA

A gem for the rock garden. In June and July the 6 to 8 inch long, pendant spikes of small golden yellow bells hang down over sedum-like leaves; most effective and unique. This charming hardy perennial is happiest in the sunny part of the rock garden. Pkt. \$1.00

## ESCHSCHOLTZIA CHERRY RIPE

A new large flowered semi-double form, color of a ripe cherry—cup deep bright cerise suffused terra cotta at base. Pkt. 50c

## DORONICUM

Pardalianches, "Bunch of Gold". A mass of bright canary-yellow long stalked Marguerite-like flowers. Developes into fine clumps about 24 to 30 inches high, and is valuable both for vases and the perennial border.

Pkt. 75c 3 Pkts. \$2.00

## HUNNEMANNIA

Sunlite. Attractive semi-double form of the well-known Mexican Tulip Poppy. The tulip-shaped flowers with their extra band of petals on the outside rather than the inside of the cup give the appearance of being open at all times. The plants are of good habit, about two feet in height, and do best in a sunny position and well-drained soil.

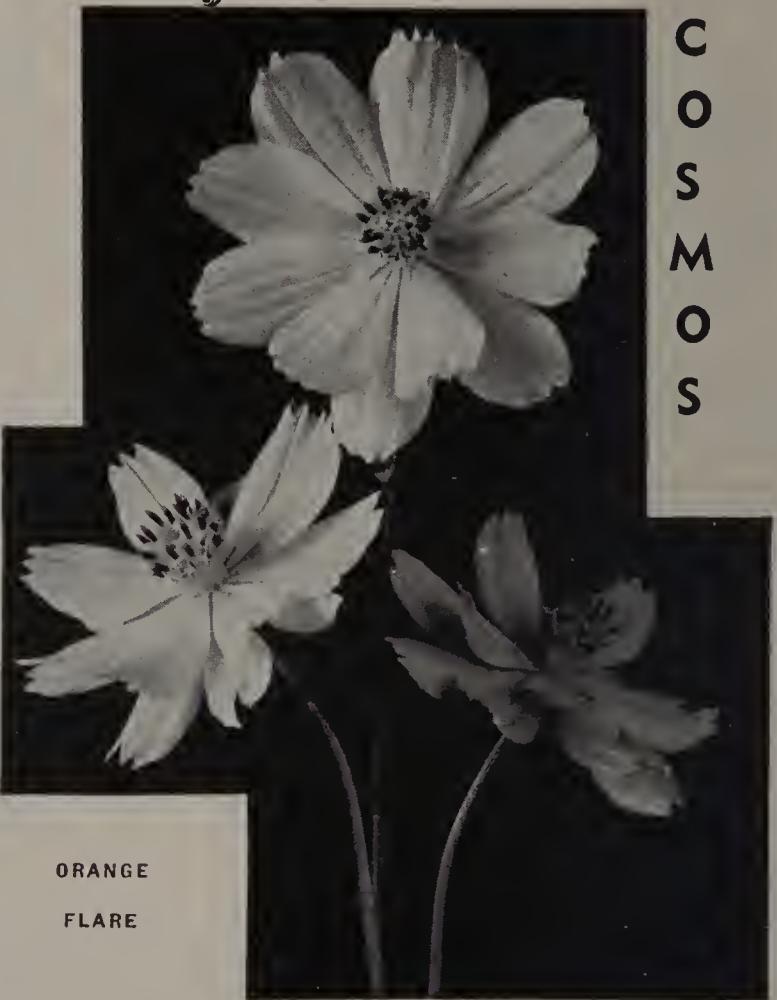

Pkt. 25c  $\frac{1}{8}$  oz. 75c

## LARKSPUR H.A.

Giant Imperial, White King. The flowers are a pure glistening white; the florets extremely large and fully double, measuring 2 inches across. Of Hollyhock type; spikes 24 to 30 inches long. An early blooming variety.

Pkt. 25c  $\frac{1}{4}$  oz. \$1.00

ORANGE  
FLARE

## COSMOS

New Klondyke, Orange Flare. The same vivid orange hue as the well-known Klondyke, but differs from it in the important respect that it comes into full flower in less than four months from the time of sowing. Pkt. 25c  $\frac{1}{8}$  oz. 75c

Sensation. The flowers are mammoth in size, 4 to 5 inches in diameter, with broad heavy fluted petals carried on long strong stems. It is extremely early flowering, blooming in 10 weeks from time of seeding. The mixture contains white and shades of rose and pink.

Pkt. 25c  $\frac{1}{8}$  oz. \$1.00

## SCHIZANTHUS

Sunset Hybrids. This is the only strain of Schizanthus Hybrids composed entirely of brilliant red and rose shades. It is a well balanced blend of bright red, carmine, cerise, rose and pink tints, each butterfly like flower delicately marked with gold or white. Excellent for cutting.

Pkt. 25c 5 Pkts. \$1.00

## STATICE

Sinuata, Lavender Queen. A lovely new hardy annual variety. Color a beautiful clear bright lavender. A useful addition to the border. Pkt. 35c

## SILENE

Maritima. Belongs to the welcome perennials which tide over the barren period from July to September in the rock or alpine garden. The dense cushions, up to 8 ins. high, are thickly covered with a loose inflorescence of large shining white flowers. Needs very little attention.

Pkt. 50c

CALENDULA, ORANGE SHAGGY

### TWO POPULAR CALENDULAS

**Orange Shaggy.** A very desirable variety of new and distinct type. The petals are long and deeply fringed, overlapping each other, and impart to the bloom a shaggy and chrysanthemum-like appearance. Color deep orange shading to lighter orange in center. When well grown produces long stems, and forms a plant about 18" high.

Pkt. 25c  $\frac{1}{8}$  oz. \$1.00

**Chrysanta or Sunshine.** An exquisite shade of buttercup yellow, with the rounded appearance found in chrysanthemums. Besides adding a splash of golden color to the garden, Chrysanta is a fine cutting variety with long stiff stems. It is thus well adapted to combine with other flowers in vases or bowls.

Pkt. 15c  $\frac{1}{4}$  oz. 35c

### SCABIOSA

**Fischeri.** A fine border plant from Manchuria. Hardy and a true perennial growing about twenty inches high with handsome divided leaves, and blooming right into autumn. The flowers are about 2½ inches in diameter, of a rich deep violet blue unlike any other Scabious, and are borne on long stiff stems.

Pkt. 50c

### FIVE VALUABLE MARIGOLDS

**Crown of Gold.** A new collarette variety with entirely odorless foliage; flowers sweet scented on long stems; a chrysanthemum-like top or crown of incurved petals surrounded by a collar of big broad petals of the same color—bright golden orange. Flowers 2½ inches across. Early flowering. 2 feet tall.

Pkt. 25c 5 Pkts. \$1.00

### NEW MARIGOLDS—Continued

**Gigantic Sunset Giants** is a mixture of colors ranging from deep orange to light yellow and a delightful shade of primrose. Flowers have a sweet fragrance; loosely formed. Very full center with broad heavy petals gracefully overlapping to make a flower of great depth. Plants are usually 3½ to 4 feet high with flowers averaging 5 inches across.

Pkt. 25c 5 Pkts. \$1.00

**Royal Scot (French Tall Double).** A bold and striking combination of mahogany and gold in symmetrical stripes which radiate from the center of the flower. The blooms are produced in abundance on plants from 24 to 30 inches in height. Effective in the garden as well as useful for cutting.

Pkt. 15c  $\frac{1}{8}$  oz. 50c

**Dwarf Royal Scot.** All double, same as the tall Royal Scot except that the plants grow only 10 to 12 inches high.

Pkt. 20c

**Dixie Sunshine.** Large ball-shaped double flowers composed of dozens of tiny florets. Brilliant golden yellow, and only faintly scented with the characteristic Marigold odor. Forms tall bushy plants literally smothered with blooms. Excellent either in the garden or as cut flower for house decoration.

Pkt. 25c 5 Pkts. \$1.00

### DELPHINIUM

#### DON'S RE-SELECTED WHITE WREXHAM HYBRIDS

These hybrids are of the true Wrexham type, immeasurably superior to all strains of white hybrids hitherto introduced.

Mature plants produce flower spikes 5 to 6 feet high, bearing individual flowers 2 inches and more across.

They include singles, semi-doubles and doubles with brown, black and gold centers, producing contrasts of striking beauty.

Pkt. \$2.00

DON'S WHITE WREXHAM HYBRIDS

## WORTHWHILE PETUNIAS.

**Rose Gem.** A neat and compact plant 5 to 6 inches high, and smothered with rich rose colored blooms about two inches in diameter. Pkt. 75c

**Pink Gem.** Five to six inches high, literally covered with deep pink blooms. 1934 Gold Medal Winner. About two inches in diameter.

Pkt. 25c 5 Pkts. \$1.00

**Dainty Lady.** This new variety of the single fringed grandiflora type is, to the best of our knowledge, the first really yellow Petunia. It is a delicate golden yellow color which is the result of careful development during the past ten years. The plants are neat, compact, semi-dwarf and free-flowering.

Pkt. \$1.00

**Martha Washington.** A new break in Petunias. The plant is of neat and compact habit, growing about nine inches high, and completely covered with lovely frilled blooms about three inches in diameter. The frilled portion of the flower is a beautiful blush pink and the center is strongly veined a rich wine red deepening in the throat to dark violet. Suitable for borders, bedding, pots or window boxes.

Pkts. 50c

**Don's Blue Bedder.** A very free flowering single petunia of an unusually rich, dark blue shade, growing about one foot high. This variety comes almost 100 per cent true to color. It withstands bad weather admirably and is therefore exceptionally valuable for bedding.

Pkt. \$1.00

**Fimbriata Nana, Lace Veil.** A pure white fringed variety. The bushy plants, about one foot high, are thickly covered with white flowers measuring about 2½ inches across. The finely fringed and sometimes waved edges of these flowers give the impression of a dainty lace gown.

Pkt. 50c

**Dwarf Rose Bedder.** When in full bloom height averages 9 inches, spread of 11 inches. Compact habit, dome shaped plants covered with large Tyrian Rose single flowers with golden throat; 2½ inches across. Thirty-five blooms and partly opened buds were counted on one plant. Much deeper, more compact habit than Rosy Morn.

Pkt. \$1.00

**Golden Jubilee.** Very effective for the decoration of window boxes; terraces, large vases or tubs. It has finely fringed and delicately crinkled petals of bright carmine tinged with scarlet; golden throat with light bronze marking. Produces flowers about 3½ inches in diameter.

Pkt. \$1.00

PETUNIA. LACE VEIL

ZINNIA, FANTASY

## THREE VALUABLE ZINNIAS

**Fantasy, Finest Mixed.** (Chrysanthemum Flowered). The informal shaggy appearing flowers are very graceful and interesting, and entirely distinct from the more usual formal types. The flowers, composed of a mass of shaggy ray-like petals are large enough to satisfy the desire for a mass of color, yet small enough to lend themselves adaptively to flower arrangement. The colors include brightest shades of reds, yellow and orange, as well as the popular pastel pinks and cream.

Pkt. 25c 1/8 oz. 50c

**Desert Gold.** The flowers comprise a mixture of the lighter and deeper hues of gold. The plants are from two and a half to three feet in height, bearing a profusion of large, well-formed flowers, which are equally effective under daylight or artificial lights. Those who appreciate the finest in Zinnias will welcome Desert Gold.

Pkt. 25c 1/8 oz. 75c

**Mexican Hybrids (Haagaena) Double.** This is an interesting and artistic strain of Zinnia. Semidwarf variety growing about 18 inches high. The plants are simply covered with small double blooms of unusual colorings. Many of the light shades are tipped with red or maroon, and the deep tones are tipped with lemon yellow, golden yellow, or orange. Splendid for borders.

Pkt. 15c; 1/4 oz. 75c

## ICELAND POPPY

**Yellow Wonder** is longer stemmed, larger flowered and more vigorous growing than any other Iceland Poppy. The showy, cup-shaped flowers grow about 4 in. across, are rich lemon-yellow; the clear yellow color is made especially vivid by the silky sheen of the broad, round petals. Plants are strong growing and very free flowering; the foliage is rich bluish green and deeply lacinated. The long, strong stems grow about 2 feet high. It is showy in the garden and lovely for cutting.

Pkt. 50c

# General List of Choice Flower Seeds

**H.A.**—Designates Hardy Annuals. These can be sown in the open ground. They flower and mature their seed and die in one year.

**H.H.A.**—Designates Half Hardy Annuals. For early results sow in the house, greenhouse or hotbed in February to April and transplant to the garden as soon as the weather is settled, or seed may be sown outdoors about the middle of May.

**H.B.**—Designates Hardy Biennials. Sow in the open border from June to September. The plants winter without protection, flower and die the second year. Although some varieties will flower the first year if sown very early.

## ANTIRRHINUM, Snapdragons H.H.P.

### RUST PROOF VARIETIES

#### Maximum Type

**Loveliness.** A most attractive pure soft rose-pink. Exceptionally large flowers gracefully spaced on long non-lateral stems. The broad foliage and stems are bright green. The plants throw from 12 to 16 strong spikes making it an especially good variety for cutting.

**Alaska.** The best white rust-proof variety. Blooms are large and well spaced. The plants are base branching and throw from 12 to 14 vigorous spikes.

**Campfire.** A new color in Antirrhinums. Pure luminous scarlet entirely free from orange or bluish tinges, with yellow lip. Flowers closely spaced, forming spikes 10 to 12 inches long on tall non-lateral stems. Foliage and stems bright green.

**Canary Bird.** Canary-yellow. Closely spaced blooms and green spotless foliage. Plants are very vigorous, producing from 12 to 14 non-lateral stems.

**Copper shades.** Starting with a deep, rich, velvety copper-orange, almost every possible coppery shade may be found until we reach the lightest colored blossoms which are a coppery old gold. The yellow lips vary in size and blend perfectly with the coppery colors of the blossoms. Base branching with long strong stems.

**Crimson.** A variety of outstanding merit. The combination of fiery crimson flowers, dark green foliage and dark plum colored stems which is characteristic of this variety make it most attractive.

**Majestic Red Shades.** Shades of deep crimson, garnet and ruby. Large flowers well spaced on the spikes. A very rich combination of shades.

**Indian Summer.** Rich velvety and glossy coppery orange scarlet.

**Mixed.** A very superior Maximum Rust Proof mixture containing all the colors of the non-resistant types and many new shades. All have base branching habit and throw from 12 to 18 well formed spikes.

All the above 50c per packet.

Collection of the above 8 named varieties \$3.50

# Don's Choice Zinnias

The Zinnias are among the most brilliant, showy and satisfactory annuals and have long been general favorites, not only for garden decoration, but also for cutting. The seed may be sown early in the hotbed or light window and transplanted, or sown later in the open ground. They come into flower early in the summer and keep on blooming until frost.

## Double Dahlia-Flowered

The plants are of strong, vigorous habit, fully 3 feet high, producing mammoth flowers averaging 6 inches across by 3 to 4 inches in depth. The range of colors includes many unusual tones, as the result of continued careful selection.

# New and Specially Recommended Varieties of Vegetables

## NEW FORCING BEAN, The Prince

Without a question, the finest forcing Bean yet introduced. It is quick to mature and crops enormously. The pods are without strings, meaty, of fine flavor and immense size—11 to 12 inches not being unusual.

Per lb. 90c; 2 lbs. \$1.75; 10 lbs. \$8.50

## BUSH LIMA BEAN McCrea's

Earliness, productiveness, and flavor are the outstanding points of this variety. The bean is intermediate in size between the Fordhook and Henderson limas, with the well known high quality of Fordhook. We can confidently recommend this as an excellent table variety. Per lb. 65c; 2 lbs. \$1.20

## BEET Winter Keeper

A late Beet, not of handsome shape, but of exceptionally fine quality, remaining sweet and tender, even when very large.

The roots will keep all Winter and retain their fine quality until Spring. They are almost globe-shaped, tapering somewhat toward the base. The flesh is dark red, and the foliage green.

Oz. 40c.; 1/4. \$1.00; 1 lb. \$3.00

## BRUSSEL SPROUTS, Brechin Castle

A superior strain of fine quality and a wonderful exhibition variety.

Pkt. 15c., 1/2 oz. 40c., oz. 75c.,  
1/4 lb. \$2.50

## CUCUMBER

Orient. Well formed fruits, long and dark green; firm and crisp. Very productive. Customers who tried this variety last season praise it highly.

Pkt. 15c; 1 oz. 50c

## CARROT, Imperator

A Carrot of extra sweet and tender quality, with a tapering root 7 to 8 inches long, easily pulled. Flesh of fine deep orange color, with a very faint core.

Pkt. 10c; Oz. 25c; 1/4 lb. 75c

BEAN, THE PRINCE

## CAULIFLOWER, Don's First and Best

This is the earliest of all Cauliflowers and is particularly adapted for forcing under glass, and for very early Spring crop outdoors. It is very white, smooth and even in character.

Pkt. 50c., 1/4 oz. \$2.50, oz. \$8.00

## SWEET CORN

Midget. A very early dwarf sweet corn growing about 30 inches high. Delicate small ears 3 to 4 in. long with very sweet white kernels. Suitable for growing under glass or in the small home garden.

Pkt. 25c; 1/4 lb. 90c; lb. \$2.50

Golden Sweet. The earliest of all yellow sweet corns. Ears just a trifle smaller than Golden Early Market. Matures in about 53 days.

lb. 40c; 2 lb. 75c; 10 lb. \$3.50

Asgrow Golden Colonel. The yellow counterpart of Country Gentlemen. Large handsome ears with dainty shoe-peg kernels.

1/2 lb. 40c; 1 lb. 75c; 5 lb. \$3.50

## HYBRID SWEET CORN WILT RESISTANT HYBRIDS

One of the most successful and interesting plant breeding achievements of recent years is the production of hybrid sweet corns that actually yield 25% to over 100% more than the old favorites, and that are amazingly uniform and of wonderful quality.

Plant breeders have learned that by artificially inbreeding strains of corn for some years, then crossing them by controlled pollination, they usually get in the first crop remarkable "hybrid vigor" and also always the same definite and uniform characteristics.

### Top Cross Golden Sunshine

Matures about 76 days, ears 7 to 8 inches, 12 rowed.

### Whipple's Top Cross

80 days, 7 to 8 inches long, 12 to 14 rowed. Yellow.

### Golden Cross Bantam

86 days, 8-inch ears, 12 rowed.

### Kingscrost Bantam

Of true Golden Bantam form, but ten days earlier.

### Spancross 39

A new medium early Hybrid sweet corn. 80 days, 8 inch ears.

All the above—1/2 lb. 45c; 1 lb. 80c; 5 lbs. \$3.50

**BROCCOLI**  
**Italian Green Calabrese**

We are confident that our strain is the best obtainable. It is early and uniform, each plant producing a large center head and many side shoots.

Broccoli is grown the same as cabbage or cauliflower. Simply sow the seed in the open ground in May and transplant the plants when large enough.

The large center "head" is cut out when ready to use and the plant will then form numerous branch heads which can be used later, so a continuous

LETTUCE, Don's White Boston

supply may be had for a long time. A few plants set in June will give sufficient of this very popular delicacy for a medium sized family.

Pkt. 15c;  $\frac{1}{4}$  oz. 60c; 1 oz. \$1.50

**LETTUCE, Don's White Boston**

The best strain of the butter head type, 10 days earlier than Big Boston. Very large frame and head. Will not tipburn, nor turn red, and will hold several days in the field after maturity before bolting to seed.

Pkt. 15c.; oz. 50c;  $\frac{1}{4}$  lb. \$1.50

**LETTUCE, New York No. 515**

This is a desirable type of the New York or Wonderful lettuce, maturing a little earlier and adapted to warmer weather and with smaller outer leaves.

Pkt. 15c Oz. 50c  $\frac{1}{4}$  lb. \$1.50

**LEEK, Don's Exhibition**

Long, thick, white stems. To get the best results with this seed, sow early, plant in rich, deep, well-manured land, and water copiously in dry weather; when half-grown, commence giving weak liquid manure. This is a real exhibition variety.

Pkt. 15c Oz. 75c  $\frac{1}{4}$  lb. \$2.50

**MUSK MELON**  
**Caroline Clark**

One of the most satisfactory varieties for the private estate or the amateur gardener. Salmon flesh, skin very finely netted. For flavor it would be difficult to find its superior. Early and blight-proof.

Per Pkt. 50c Per Oz. \$2.00

**ONION, Ailsa Craig**

This variety is used very extensively for exhibition purposes as well as culinary. Will grow very large, often weighing 2 lbs. apiece. Our strain is extra selected English seed specially grown. Pale straw-colored.

Pkt. 25c Oz. \$1.00  $\frac{1}{4}$  lb. \$3.25

DON'S JAPANESE BUNCHING ONION

**PARSLEY, Triple Curled**

This Parsley is remarkable for its extra fine leaves and its dense habit of growth. A good exhibition sort.

Pkt. 10c      Oz. 25c       $\frac{1}{4}$  lb. 75c

TOMATO MARGLOBE. Perhaps the greatest of the globeshape varieties.

## ONION Don's Japanese Bunching

This variety grows in clusters, 3 to 5 onions being on one plant. Seed sown in the spring will produce long green scallions early in the summer. Does not form a bulb but the scallions are nearly twice as large as the ordinary bunching onions. Mild and sweet and with little protection will stand all winter and produce fine large "green" onions early in the spring. Pkt. 15c      Oz. 50c       $\frac{1}{4}$  lb. \$1.50

**PEPPER, World Beater**

One of the very best of the large Peppers—being a cross between Chinese Giant and Ruby King—fruit measuring nearly 6 inches long by 4 inches through; flesh very thick and mild, exceedingly productive.

Pkt. 10c.,  $\frac{1}{2}$  oz. 40c., oz. 75c

**RADISH, Earliest Carmine Forcing**

We strongly recommend this variety as the earliest of all the forcing radishes. The roots are globular, bright scarlet in color, and with very small tops.

Pkt. 10c      Oz. 25c       $\frac{1}{4}$  lb. 75c

**SQUASH, Acorn or Table Queen**

A thick shelled acorn shaped variety with trailing vine, dark green skin and light yellow flesh.

Fruits about 6 inches long and are served baked and cut in half.

Pkt. 15c; oz. 35c;  $\frac{1}{4}$  lb. \$1.00

**TOMATO**

Essex Wonder. This variety is a very heavy yielder. The fruits are thin-skinned, uniform in size, good shape and of excellent flavor. A variety highly recommended for private estate use.

Pkt. 25c       $\frac{1}{4}$  oz. \$1.75

Marglobe. A main crop scarlet-fruited variety of globe type. It fruits early and continues to yield until frost. It resists wilt and is immune to rust.

Pkt. 10c.       $\frac{1}{2}$  oz. 45c      1 oz. 85c

Penn State. A very early smooth fruited sort on the order of Earliana. Fruits in compact clusters. Very short vine. Flesh dark red, very little core and few seeds. Pkt. 20c;  $\frac{1}{4}$  oz. \$1.00

Rutgers. Second early. Fruits medium to large, flesh firm and red, and a pleasing flavor. Excellent for home or market, and a superior canning variety. Pkt. 20c;  $\frac{1}{4}$  oz. \$1.50

## Herbs — Sweet and Medicinal

In many gardens and on many estates the old fashioned "herb garden" is once more rapidly becoming an important and interesting feature. Most herbs can be grown easily from seed, and we offer below a fairly comprehensive list of varieties which we carry in stock, and from which at least the nucleus of an interesting collection may be obtained. Other varieties can be supplied if required.

Pkt. Oz. Pkt. Oz.

Agrimony (Agrimonia Eupatoria). A native herb bearing numerous small yellow flowers and aromatic leaves. Hardy perennial. The leaves are made into a tea for a tonic	\$0.10	\$0.50	Burnet (Poterium Sanguisorba). Hardy rosaceous perennial. The leaves are used for flavoring soups, and also in salads. In addition to its culinary use the plant makes an attractive subject for the hardy border. Height one to two feet. Flowerheads are small; foliage dark green, oval and notched	.10	.30
Angelica Archangelica. Stout vigorous herb with large leaves and umbels of small flowers. The stems and ribs of the leaves when blanched are eaten in the same manner as celery, and are still used in the making of sweetmeats. Hardy perennial	.10	.50	Caraway. Seeds used in flavoring bread, cake, etc., 1 to 2 ft. high. Finely cut foliage and small white flowers. Biennial	.10	.25
Anise (Pimpinella anisum). The leaves are used in medicine and for flavoring, as they yield a highly perfumed essential oil. The leaves also may be utilized as garnishing or for seasoning. The plant is an annual, growing about two feet high, and bearing small yellowish-white flowers in loose umbels	.10	.35	Catnip (Nepeta Cataria). This is the herb the odor of which is so attractive to the domestic cat. Is also used in the making of catnip tea which is supposed to have tonic properties. Perennial	.15	.60
Balm (Melissa officinalis). Leaves are used for seasoning, especially in liquors. Thrives in any warm situation. Easy to grow. Hardy perennial, 1½ feet high	.10	.50	Chamomile (Anthemis nobilis). A pleasant scented herb. The flower heads, cut and dried when fully expanded, are used for medicinal purposes. Perennial	.15	
Basil, Sweet (Ocimum Basilicum). The clove-flavored foliage is used as seasoning in soups. Hardy annual	.10	.35	Coriander (Coriandrum sativum). The aromatic seeds are used as seasoning or flavoring in cakes, pastries and cordials. Annual. Height 2 to 3 ft.	.10	.30
Bene (Sesamum Indicum). Native of India where the oil derived from the seeds is extensively used for cooking and anointing. Cultivated in the northern states as a medicinal herb, the mucilaginous leaves being used for the relief of dysentery. The oil expressed from the seeds is, however, a laxative if taken in large doses. Annual	.10	.50	Dill (Anethum graveolens). The seeds are used as seasoning; foliage may also be used for flavoring, and medicinal preparations are made from the plant. Height 2 to 3 ft. Annual	.10	.20
Borage. In Germany and some other parts of Europe used as a pot herb, and sometimes with salads. In this country grown chiefly as a bee plant. Striking blue flowers rising about two feet high over large coarse oval leaves. Annual	.10	.35	Fennel, Sweet (Faeniculum officinale). Grown for its young leaves which are used in flavoring, also for its aromatic seeds. Seed may be sown in early spring, or late in the fall for spring germination. Perennial	.10	.25
			Horehound (Marrubium vulgare). A hardy perennial bitter aromatic herb growing 1 to 3 ft. high, with whitish hairy leaves and small whitish flowers. Used in making horehound tea for coughs and colds	.10	.40

SWEET MARJORAM

THYME

SWEET BASIL

## HERBS—Continued

**Hyssop (Hyssopus officinalis).** The plant has a strong odor, and pungent, bitter taste. The green parts are used with Wormwood and other herbs in the making of absinthe, and a powder formed of the dry flowers is used in flavoring soups. It is also employed in the making of home-made concoctions for the relief of coughs, asthma, etc. Hardy perennial

.15 .50

**Lavender (Lavandula vera).** Well-known shrubby perennial noted for its strong and pleasant odor. Does best in a light open well drained soil. Needs winter protection in the northern states

.10 .50

**Lovage (Levisticum officinale).** The aromatic seeds are used as a flavoring in cakes and confectionery. A hardy tall growing perennial herb with dark shining leaves. A native of southern Europe where the leaf stalks are sometimes blanched and used in the same manner as celery

.10 .30

**Marjoram, Sweet (Origanum majorana).** The plant has a pleasing odor and warm aromatic bitterish taste. Its green parts are used as a seasoning in soups, meat pies and dressings. Although really a perennial it is best treated as an annual on account of its being very apt to winter-kill if not carefully protected. Erect branching habit, and plants should be thinned out till at least six inches apart. The small seedlings should be protected from hot sun

.10 .40

**Majoram, Pot (Origanum vulgare).** The aromatic leaves and young shoots, gathered just before blossoming are used for the same purposes as Sweet Marjoram. An easily grown hardy perennial, about two feet high and of branching habit. Plants should be set out about twelve inches apart

.15 .75

**Marigold, Pot (Calendula officinalis).**

This is the Mary-gold of Shakespeare's time. The flower heads are sometimes used in cookery to flavor soups and stews. Hardy annual

.10 .50

**Pennyroyal (Mentha pulegium).** A sweet herb used for seasoning. Easily grown hardy perennial

.20 .80

**Rosemary (Rosmarinus officinalis).** The leaves are used as seasoning, and for the distillation of Oil of Rosemary. Hardy perennial bearing small light blue flowers which are attractive to bees

.15 .75

**Rue (Ruta graveolens).** Useful as a seasoning, and also for curing roup in birds. Hardy perennial

.10 .45

**Sage (Salvia officinale).** Used in stuffings and dressings for goose, duck and pork. Also in medicine, and its use was formerly supposed to strengthen the memory. A shrubby fibrous rooted perennial easily grown from seed

.10 .35

**Savory, Summer (Satureia hortensis).** For flavoring. Annual. Sow in April or May

.10 .35

**Savory, Winter (Satureia montana).** Perennial variety of the above

.10 .50

**Tansy (Tanacetum vulgare).** Used in medicinal preparations as a tonic and stimulant, and as a local agent in the relief of muscular rheumatism. The fern-like foliage has a bitter aromatic flavor. An herbaceous perennial growing about 3 ft. high

.10 .70

**Thyme (Thymus vulgaris).** Leaves and shoots are used for seasoning. While there are several varieties of thyme, this is the one generally grown as a kitchen garden herb, and the most suitable for this purpose

.10 .60

**Wormwood (Artemisia absinthium).** One of the principal ingredients in the manufacture of absinthe. Is also used medicinally in tonic preparations. The leaves and shoots when dried may be placed among clothing as a moth repellent

# HARDY CHRYSANTHEMUMS

These plants are indispensable in the garden or hardy border as they produce a profusion of blooms giving color and beauty to the garden at a time when other plants have been destroyed by frost. They are reasonably hardy if planted in a well-drained position and if given a slight protection of leaves or loose litter during the winter.

Chrysanthemums are divided in four groups as listed below. The varieties described below have been selected from an immense list and we believe them to be the best in their respective class and color.

ALL plants — 25c each;

\$2.50 per dozen;

\$20.00 per 100
